

# OPEN ATTACK ON POLICY IN NICARAGUA

## KELLOGG PACT OFFER GREAT PEACE FACTOR

Proposed Treaty With France Significant in Field of Diplomacy

### STRONG MORAL POWER

No Present Effort to Sign Binding Legal Pledge Not to Resort to War

BY DAVID LAWRENCE  
Copyright 1928, by Post Pub. Co.

Washington—Although many difficulties are known to be in the way, the government of the United States has nevertheless offered the rest of the world a proposal to outlaw war. Not since this idea was broached by Aristide Briand of France has anything more significant occurred in the field of world peace and diplomacy.

French opinion expressed in cable dispatches points out that the Bryan treaty now in existence really prevents the United States and France from going to war without waiting nine months for an international commission of investigation to make its report and that the text of the new arbitration treaty proposed, which would not, of course, supersede the Bryan treaty is not really an advance beyond the Bryan agreement.

The question really turns on what the preamble outlawing war will be construed to mean. If it does not perpetually bind by legal means the United States and France not to go to war with one another it will nevertheless be regarded as carrying a strong moral obligation against war.

### MORAL OBLIGATION

The pledge not to resort to war but to seek "peaceful means" of settling disputes is, to be sure, nothing more than a moral pledge because under the constitution of the United States the right to declare war is granted to the legislative branch of the government. To be legally binding both houses of congress must agree not to vote to go to war, and of course, no congress can bind another so far as the constitution is concerned. There is an age-old controversy as to whether a treaty can in any way amend the constitution by surrendering rights that otherwise would be exercised by congress.

For this and other reasons there will be no effort at present to formulate a binding legal pledge not to resort to war but the United States will sign a declaration of principle against war and trust to the public opinion of America at all times to fulfill that moral pledge.

### LEAGUE ATTITUDE

Out of the complications that have arisen is the fact that the league of nations covenant binds member nations to protect each other against aggression. This use of force would automatically be required of any member nation that wished to carry out the moral obligations of the famous Article Ten. If the proposal made by the United States, namely, that other powers shall join the United States and France in outlawing war, is accepted as a legal pledge, then it will conflict with Article Ten of the league. If it is regarded as simply a moral obligation it may lead to some amendment of Article Ten defining the obligation therein as moral and not legal.

It was this stumbling block as much as any other that helped to prevent American acceptance of the league covenant and brought about the much debated lodge reservation to Article Ten. It is not yet clear whether the department of state will withhold transmission of the Franco-American treaty pending receipt of word from other powers as to whether they wish to join in whether the United States and France will go ahead anyway. The truth is the movement to outlaw war is being given a practical test in the hope that once and for all the diplomats may determine whether governments are ready to go any further than they did in the league covenant or in the Bryan treaties.

## MAY DELAY APPOINTMENT OF NEMACHECK SUCCESSOR

Madison—Gov. Fred R. Zimmerman intimated Thursday that he might not appoint a successor to J. T. Nemacheck, who recently resigned his office as chairman and member of the state highway commission, until time passed. The governor said there was no absolute necessity for appointment of another commissioner until that time.

It was intimated in the governor's office Thursday, although not by anyone officially connected with that office, that the governor might call attention to the highway commission situation in his call for a special session of the legislature, which is expected soon.

Mr. Nemacheck resigned because he said he was financially unable to carry on the work at \$5 per day per commission meeting. This matter was brought before the regular session and a bill was introduced making the commission a three-man full time body. The bill failed to pass, however, in the storm of the highway investigation and confirmation of Mr. Nemacheck's appointment.

## Sandino Forms Republic In Nicaraguan District

Managua, Nicaragua—(AP)—A republic has been founded in the Nueva Segovia district by General Augusto Sandino rebel leader, with whom United States marines are engaged.

Money has been coined in the name of republic government and prohibition of intoxicants established with severe penalties. Death is the penalty for a man convicted of selling liquor; a convicted woman's property is burned. The rebel leader changed the name of San Fernando to Sandino when he established the republic.

Sandino was a leader in the liberal army commanded by General Jose Maria Morazan, leader of the opposition to the conservative Diaz government. In compliance with an agreement negotiated by Henry L. Stimson, President Coolidge's personal envoy, the liberal forces laid down their arms last July with the assurance that next August a fair national election would be held.

Sandino gathered a number of those dissatisfied with the settlement about him. He seized and operated American mines and levied taxes in the district.

Sandino Thursday was believed by the marines and national guardsmen occupying Quilali to be awaiting a favorable opportunity to attack his former stronghold.

The quiet which prevailed had put the marines on guard. There have been no indications of a major rebel movement since Sunday when one marine was killed and five wounded. Particular care is being taken to prevent a surprise attack upon marine patrols, pack trains and reinforcements are being sent daily from here to Ocotal. Ocotal is the distribution center from which Quilali and the rest of the embattled region are supplied.

## HONDURAS REGRETS LINDY MUST LEAVE

"Marvel Child" Added to Flier's Titles as He Leaves for Nicaragua

Tegucigalpa—(AP)—Col. Charles A. Lindbergh hopped off from Tegucigalpa to Managua, Nicaragua, at 11:35 central standard time.

### BULLETIN

Washington—(AP)—Col. Charles A. Lindbergh accepted an invitation Thursday to visit Haiti, the state department was informed by its legation at Tegucigalpa.

Tegucigalpa, Honduras—(AP)—Hondurans regretted Thursday that "the marvel child" Lindbergh, who had left from Tegucigalpa, had to leave them.

To the people, Col. Charles A. Lindbergh has become "el niño prodigio" (the marvel child) and his friendly smile has conquered them. A commission, representing each of the 17 departments of Honduras, paid him final tribute and Gregory Reyes, representing the department of Olancha, as spokesman ended his speech with a note of regret at Lindbergh's short stay.

"I wish instead of days, I could stay weeks in Honduras," Lindbergh replied. The flier's route Thursday, 150 miles—led from Tegucigalpa to Managua, Nicaragua, via Leon. No stop was planned for Leon.

The flight of Lindbergh has created a new and strong bond of friendship between Honduras and the United States. President Miguel Pas Barahona said at reception in the presidential palace.

## WILL NOT ASK PARDON FOR MRS. RUTH SNYDER

Albany, N. Y.—(AP)—For two hours Thursday, lawyers made a last fight before Governor Smith for the lives of Mrs. Ruth Snyder and Henry Judd Gray, under sentence to die in the electric chair a week from Thursday. When the lawyers were through the governor merely said, "Well, the hearing is over, and walked out of the room. It was understood that he will render a decision on Monday.

Albany, N. Y.—(AP)—Edgar F. Hazleton announced Thursday morning that he would ask neither for pardon nor commutation of sentence for Mrs. Ruth Snyder, at Thursday's clemency hearing before Governor Smith. All he wanted for his client, he said, was a 30-day stay of execution so that practitioners of "the new psychiatry" might examine her to substantiate his assertion that she is so diseased emotionally, though not insane in that sense, that she cannot help doing wrong, even to the extent of murder.

Samuel Miller, counsel for Henry Judd Gray, who was convicted with Mrs. Snyder of the murder of her husband, said he would also ask for a 30-day stay as his first move. If that should be refused, however, he said he would then request commutation of sentence.

After the court of appeals upheld the verdict of the trial jury the execution was set for the week of Jan. 5. By Sing Sing custom, which sets all executions for Thursday, this would set the date for Jan. 12, one week from today.

## NEW YORK-TO-MIAMI GIRL FLIER HAS FOUND CAREER

Miami, Fla.—(AP)—Miss Ruth Nichols, 21, New York girl, who Thursday held the honor of having made the first non-stop flight from New York to Miami, plans to go into the flying business. She said this following a hundred mile an hour trip which began on the waters off Rockaway beach at 5:36 Wednesday morning and ended at 5:56 here Wednesday night.

Accompanying Miss Nichols in the Fairchild pontoon monoplane were Harry Rogers, president of an air line here, an experienced pilot, and Major M. K. Lee, retired business man of Rye, Washington and Baltimore, an amateur pilot.

"They were making the trip and I wanted to come along," said Miss Nichols, modestly. She was at the controls for five hours and for two other short intervals.

## CRIME CONFESSIONS MYTH, AUTHOR SAYS; WILL WED EX-FORGER

New York—(AP)—Nedley Lucas, 26-year-old British author who in five volumes has "confessed" a lurid life of crime, Thursday made further confession and admitted his badness was all a myth.

Lucas, however, insisted that he is to marry "Chicago May" Churchill 31-year-old former notorious blackmailer, to whom he recently announced he was engaged.

"I am going to marry the venerable crime wave, as she has been termed," he said. "She is very charming and I am fascinated by her. Further than that, she is a gold mine of crime stuff."

"It is partly a business proposition. My publishers practically insisted on it. We have all sorts of fine offers. It's too good a thing to turn down. We are wonderfully matched. She has plenty to confess and if I do say it myself, there are few who know how to confess any better than I do."

## GRAND JURY WAITS ACTION ON HICKMAN

Second Indictment May Be Ordered in Inquiry Concerning Druggist's Death

### BULLETIN

Los Angeles—(AP)—William Edward Hickman, confessed kidnaper and killer of Marian Parker, was indicated for a second murder Thursday when the county grand jury ordered him to trial for the slaying of C. Ivy Thoms, Roschill druggist, during an attempted holdup a year ago.

Los Angeles—(AP)—While prosecution and defense settled down to thresh out the question of punishment for William Edward Hickman, the county grand jury, on the basis of his sanity, the vote of the Los Angeles county grand jury was awaited Thursday on whether the kidnaper and slayer of Marian Parker would face still another indictment for murder.

The grand jury Monday heard the principal witness in the investigation into the holdup by Hickman and William Hunt, his 15-year-old accomplice, which resulted in the fatal shooting of C. Ivy Thoms, Roschill, Calif., druggist. Hickman's lawyer was the closing witness, detailing for the second time the events of the holdup of the druggist on Christmas eve, 1926.

Hunt stood upon his constitutional privilege and refused to testify before the grand jury. He previously had confessed to participating in the holdup, but denied that he was the druggist's killer. California law holds each of the parties equally responsible for the murder, regardless of which one fired the fatal shot.

The maximum sentence which could be given Hunt if found guilty on murder charge would be life imprisonment, since California law does not permit the hanging of persons under 18 years of age.

Hunt's attorney announced that he would ask the court to hear evidence of parental misdirection and alleged influence exerted by Hickman.

## BROTHER TELLS STORY OF BADGER'S MURDER

Des Moines, Iowa—(AP)—The story of the murder of Milo Szlask, Baraboo, Wis., runt runner, as told by Joe Kinney, Oxford, Iowa, man, to Joseph Szlask, Oxford, garage proprietor and brother of the slain man, was related from the witness stand in Kinney's first degree murder trial in connection with the slaying, in district court Wednesday.

The victim's brother told from the stand of arrangements made Nov. 19, the day of the murder, between Milo and Kinney for transferring a shipment of alcohol to the latter. Then he related Kinney's story to the effect he was forced by Kinney, who drove up while Szlask was putting liquor into Kinney's car, to face down on the ground while they removed the alcohol.

## CROWD FILLS COURTROOM IN PLUMMER CASE

Witnesses Describe Visit to Menasha—Audience Applauds Both Sides

Oshkosh—(AP)—A tale of a summer evening visit of Sheriff Walter Plummer to a carnival and to a Menasha hotel, where it was said, he had something to drink and conversed with a woman now in jail on charge of conducting a disorderly house, was related Thursday morning in a packed courtroom where Commissioner Herbert J. Piper is hearing evidence on which the official's removal is sought.

Two of the sheriff's companions on the trip that took them to Neenah and Menasha were the witnesses who told on him Thursday. Bert Gouch, a former saloonkeeper of Oshkosh, and 14-year-old Orville Durkee were the witnesses.

The third day of the hearing on charges preferred against Sheriff Plummer by Detective Attorney Frank B. Keefe brought no let-up in the interest manifested by the populace. Men in overalls vied with fashionably attired women and staid businessmen for seats in the courtroom.

Mr. Piper, the genial Milwaukee attorney appointed by Governor Zimmerman to hear the testimony, and the fire department took a hand to cut down the crowd. The aisles were cleared and the doors locked after all the seats were filled.

The commissioner, who has given the hearing an air of family gathering by his informality in conducting the proceedings delivered himself of an ultimatum Thursday morning that the hearing was "no sidishow" after the crowd had applauded a statement by Keefe. Piper threatened to clear the courtroom at the next demonstration. The crowd had applauded statements by both sides indicating opposing forces had their partisans in the audience.

## WINTER SPORTS FROLIC IS OPENED IN MADISON

Madison—(AP)—The first attempt to make Madison a center of winter sports started Thursday with the opening of the winter sports frolics, state university and city sports fans were cooperating in staging the events, which will be carried on through Sunday.

Thursday the program opened with skating instruction, for both local skaters and those more adept at it. Walter Muller has been the skating instructor for the event.

Thursday afternoon the chess A and B teams of the Frolics were playing a course of 25 games on Lake Mendota. It is expected that the Frolics for the year will be held at Madison and Portage. Games were to close.

## Official Heads Fall As Eastern Mayor Takes Job

Newburyport, Mass.—(AP)—It took Andrew J. "Boss" Gilles, Newburyport's newest mayor, just half an hour to repudiate his street department's charge of two in the fire department and announce his plans for snow and ice removal. He didn't even take off his hat or so much as unbutton his overcoat. And he didn't need to refer to the city books.

All he utilized was his memory, but that was as warm toward "regular guys" as it was relentless toward "bosses," ball throwers and "gold bricks." The street department, for the blow most heavily for it was there, that heads fell right and left.

"Goldbricks" Mahoney, who has long ornamented a city construction gang, was the first to fall by the wayside. "Hell have to do his loafing on some other city's payroll," ruled the new city head. Grubly but rapidly "Boss" tore through the rest of the department.

Well keep Connie Shea and Dan Finnigan and Jack Kellher," he decided, that was the state of the rest of the "buds" (those off Red Hogan and Mr. Joel Fairbanks. They can

## MOTHER DENIES THAT DAUGHTER IS FACING LIFE OF BLINDNESS

Denver, Colo.—(AP)—Emphatic denial of news reports from Milwaukee that her daughter, Carol Hovius, faced a life of blindness, was made here Wednesday by Mrs. Lynette Hovius. The Hovius girl is now on a tour of Europe with a friend, but Mrs. Hovius says the report that she is making the trip to see as much as possible before darkness sets in is "absolutely absurd."

Miss Hovius, who is 20 years old, is a graduate of the University of Wisconsin. Her mother said that at one time she was under the care of an eye specialist, but that her sight is now perfect and that there is no danger of her sight being affected in the future.

## WATCHMAN IS BURNED WITH BADGER PLANT

Made Frantic Efforts to Open Doors of Sheboygan Furniture Factory

Sheboygan—(AP)—Leaving behind mute evidence of a frantic struggle for life against the flames that consumed him, John Metzger, 34, night watchman, was found dead Wednesday night before the partly barred east of the Milwaukee River Furniture company plant, where he sought escape.

Death apparently came as Metzger unfastened the hooks that stood between him and the outside, which he had attempted to reach in a race of nearly a block through the building as the flames consumed his clothing.

## YOUTH IDENTIFIED

Stip at first denied he knew anything of the robbery and escape, but his story despite the fact that he was identified by a witness as being in the building store, and a person, who saw him run out of the store shortly after the robbery, the confessed robber, when he was identified by another witness, as the boy who sent the fire alarm to the station from Holmes drug store.

Stip at first denied he knew anything of the plan for robbing the store by himself and carried it out alone. He said he went upstairs above the building store and then a heated match onto a waste paper basket. Then he went to Holmes drug store and called the fire department and informed the firemen that there was a fire in the second floor above the building store, after which he hurried to the main floor and while the firemen were attracted to the fire of the second floor, he hurried to the street and ran out the back door. He was seen when he returned the alarm, which he had run from the store.

## TORE UP CHECKS

The police department is looking for about \$15 in cash but there were some checks, bank money orders and stamps in the box. He said he tore up the checks, money orders and stamps in the back room of the store and hid the money in a box in the back room of the store.

## BOY, 16, SAYS HE IS ROBBER OF DRUG STORE

Thomas Stip Confesses Schlitz Robbery to Police—Goes to U. S. Court

Thomas Stip, 16, of Milwaukee, was arrested Wednesday night at 10:15 p.m. at the first of Detective John Deval of the Appleton police force and charged with the robbery of Schlitz Brothers' drug store in Appleton Saturday night. It was said at the police station Thursday morning that Stip confessed to the robbery after questioning by Patrolman George T. Pann and Thomas W. Hovius, federal postoffice inspector. Stip said he carried out the robbery alone. The arrest was made by Sergeant Deval, who said he had followed Stip out front of the store after the robbery. Stip was charged with the robbery of Schlitz Brothers' drug store in Appleton Saturday night. It was said at the police station Thursday morning that Stip confessed to the robbery after questioning by Patrolman George T. Pann and Thomas W. Hovius, federal postoffice inspector. Stip said he carried out the robbery alone. The arrest was made by Sergeant Deval, who said he had followed Stip out front of the store after the robbery.

## UP TO U. S. OFFICERS

Although a charge of arson could be lodged against Stip by local authorities, it was decided to turn the youth over to the federal government because his foot represented postal money taken in an attempted robbery.

## IDENTIFY MEN TAKEN OUT OF SUNKEN U-BOAT

Navy Continues Investigation of S-4 Disaster to Determine Its Cause

Washington—(AP)—The three men taken out of the German S-4 submarine were identified by intelligence experts of the bureau of navigation as Lieutenant Commander R. K. Jones, Jr., Joseph McGinley, and Chief Machinist Mate Aaron Albert Hodges.

Jones, the commander of the vessel, lived at Haleshorpe, Md., but his parents reside at Hennessy, Ohio. McGinley's home was in Norristown, Pa., and Hodges lives at Riverside, Calif. The navy department has not official death notices to the next of kin.

## RESUME INQUIRY

Boston—(AP)—The navy's investigation of the S-4 disaster, which began Wednesday at Boston navy yards, was resumed Thursday morning.

## COULD PURIFY AIR

The navy department is looking for about \$15 in cash but there were some checks, bank money orders and stamps in the box. He said he tore up the checks, money orders and stamps in the back room of the store and hid the money in a box in the back room of the store.

## GOVERNOR MAY CALL SPECIAL SESSION OF LEGISLATURE JAN. 16

Madison—(AP)—From a usually reliable source near to Governor Fred R. Zimmerman it was learned Thursday that the governor plans to call the special session of the legislature for Jan. 16 or 23 or for the third or fourth week of this month, The Capital Times says Thursday.

The Madison newspaper says the call awaits only completion of the normal school appropriation bill, which is now nearly drafted.

## AL SMITH TURNS DOWN PARTY'S INVITATION

Washington—(AP)—The chairmanship of the Democratic national committee was turned down by Al Smith, New York governor, in a letter to the committee Thursday. He has refused power over the Democratic party and has said he will not be associated with the committee.

It is not possible now to determine what effect the governor's decision will have on the plans of the Democratic national committee, which will be held at the gathering. It was hoped to have Mr. Smith deliver an address on the issues of the party's election.

## FROZEN BODY IS FOUND SUSPENDED FROM TREE

Menominee, Mich.—(AP)—The frozen body of Joseph Perry, 64, Menominee, Mich., was found hanging from a small tree in the woods of the Riverside Country club Wednesday. He had been missing 24 hours.

# FEDERAL ATTORNEYS FINISH CASE AGAINST RADIO CORPORATION

Associated Companies Are  
Charged With Attempt to  
Create Monopoly

Washington—Federal Trade commission attorneys have just completed presentation of their case against the Radio Corporation of America and associated companies charged with "conspiring to create a monopoly in the manufacture, purchase and sale of radio apparatus and in domestic and transoceanic communication and broadcasting."

The case was begun in 1924 and counsel for respondent companies now will submit their answers. The commission attorneys filed 5,000 pages of testimony and 450 exhibits.

Seven other companies are named as conspirators with the Radio Corporation in seeking to obtain a monopoly of radio apparatus and broadcasting. They are the American Telephone and Telegraph Company, the General Electric Company, the Western Electric, the Westinghouse Electric and Manufacturing Company, the International Radio Telegraph Com-

pany, the United Fruit Company and Wireless Specialty Apparatus Company.

The complaint of the commission charges the defendants with acquiring collectively patents covering devices of all branches of radio, and combining and pooling by assigning and licensing rights to manufacture such apparatus and allowing certain of such rights to certain respondents. By agreement, it is alleged the Radio Corporation was granted the exclusive right to sell such devices manufactured under these patents.

Denying an intent to create a monopoly, the respondent companies declare the patent agreements were entered into in good faith to prevent destructive contests over disputed patent rights with the purpose of advancing the utilization of electric communication.

They contend the Radio Corporation was created in order to carry out the expressed desires of the United States for the maintenance of a world wide communication system.

A group of independent manufacturers also is making a fight on the Radio Corporation and its associates. This controversy has no legal connection, however, with the Federal Trade Commission's action.

## 428 LICENSES TO WED ISSUED DURING 1927

A total of 428 marriage licenses were issued in 1927 as compared with 404 in 1925 and the same number in 1925 and 359 in 1924 according to John E. Hantschel, county clerk. June still remains as the "bride's" month as there were 77 licenses issued in that month against 61 in May, the second largest number in any month in 1927. Many of the licenses issued in May were for marriages that were to take place in June, Mr. Hantschel said.

January and March with but nine licenses each and February with 11 had the smallest number of licenses. Following is the number of licenses issued in other months in 1927: April 23; July, 32; August, 51; September, 38; October, 48; November, 47; December, 22.

## All Smartest Things In Winter Togs Have Clever Accessories, Long Scarves, And Bright Mittens

BY BETSY SCHUYLER

Lake Placid, N. Y.—Winter sports here kept the holiday spirit in the gear this year. First it was the Yuletide carols everyone sang as they gathered the Christmas trees at home. Since then it is the story of success with its attendant stories of how the fall and the energies of those who watch.

Of course, wearing a new and new fad in this country is not enough to have a developed, suitable American skin outfit. But the women who ski at Lake Placid manage to look remarkably smart in their togs of New England, English, French or Canadian inspiration.

**OUR OWN CONTRIBUTION**  
Americans, however, do add their contribution. Being honest, they admit that the first product of skiing outfits is warmth. So instead of favoring berets many of them wear helmets, boots or stocking caps, with the long tassels that wrap around their throats for warmth.

Velvet has flown out of the drawing room window to appear in smart blue and dark blue skiing outfits. I saw Mrs. Winslow Lovejoy, of New Haven, Conn., making a smart illustration of winter sports in a navy blue velvet Norwegian skiing outfit with the woolen trousers cuffed over her woolen socks.

**A TOUCH OF NATIVE COLOR**  
A vivid red and white helmet, with the ear-flaps tucked up under, and a matching scarf, added the proper American color note and gave her a holiday urbane look. Her woolen mittens were red and white too.

Many of the guests here seem to prefer breeches to the Norwegian long trousers. There's a shapeliness and grace about them that often is lacking in the straight lines.  
Mrs. C. R. Hendrix, of Fisher Island, N. Y., looked very gay and alive in her grey breeches of water-proofed rep and a smart woolen red jacket and matching hat with a slight brim toward that deadly glare from the snow.

Her accessories added to her gaiety—gaudy mittens, long scarf, socks and tie of bright red and grey. Headgear, mittens, scarfs and skiing socks, incidentally, play a big part up here.

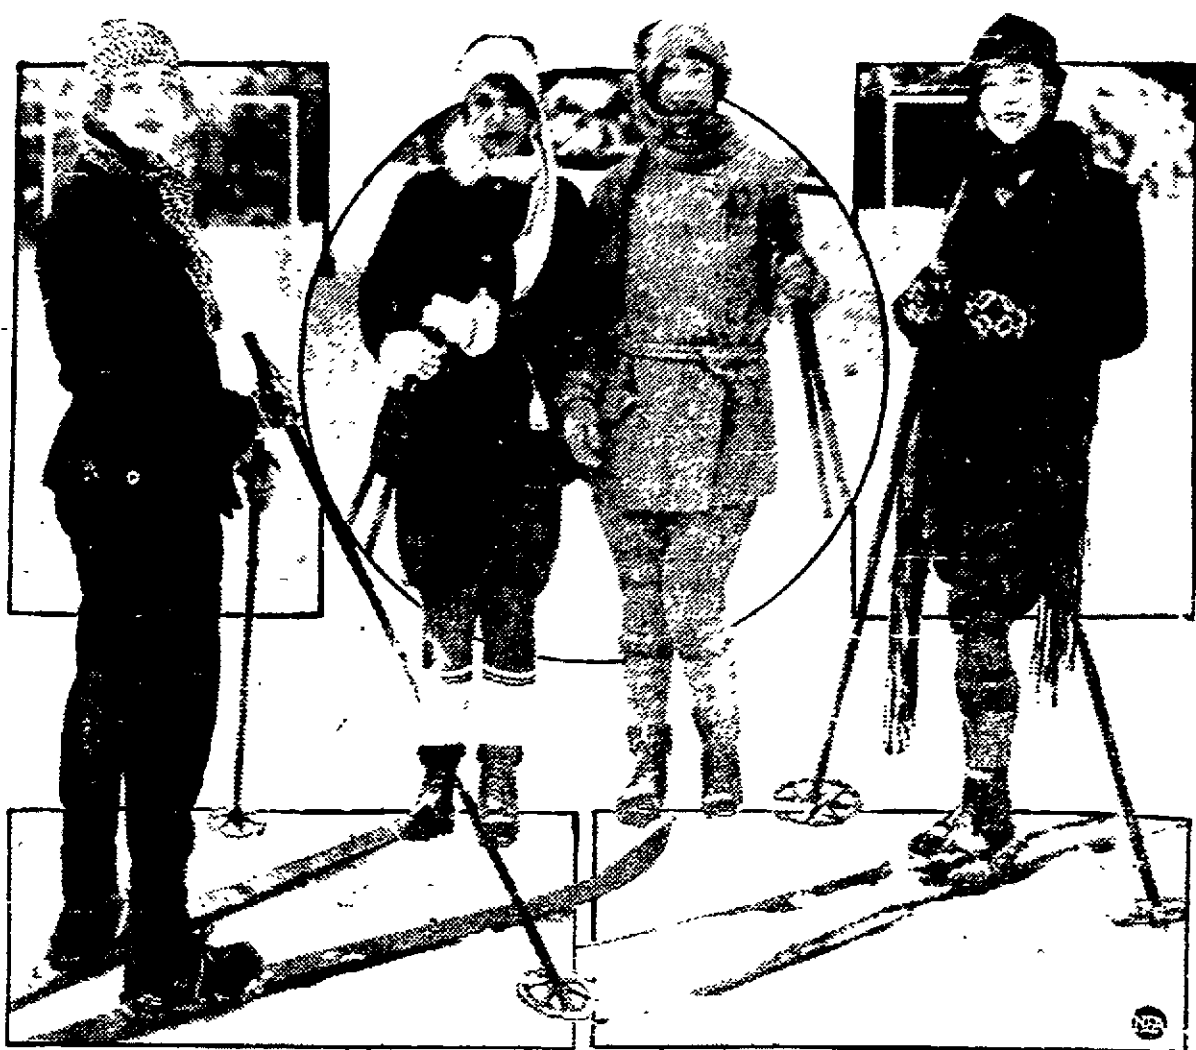

**IMAGINATION A-SKI**  
There's much imagination used in these skiing outfits. It would seem. Some have tricky zipper fastenings to the leather coats that top them—others have very feminine looking, soft woolen jackets that blouse slightly when belted at the regulation waistline. All manage to fasten snugly and smartly right up around the ears. And practically all are double breasted for warmth.

Two little outfits were sponsored by Cynthia and Suzanne Kohlstaad, of Chicago. Cynthia looked very feminine indeed with white rabbit collar, a black corduroy suit and a white angora cap with a long tassel that flew out behind her as she sped along.

Suzanne was colorful—a winter spirit almost in her woolen gown—turning with socks, cap, a ruffled skirt about her neck for a scarf as well as headgear, her mittens and skiing socks the same fine tone of green.

**NOT ALL OUTDOORS**  
Of course life isn't all skiing, tobogganing, baccarat and so on, up here. House parties are staging many brilliant evening functions. But the crisp atmosphere seems reflected in the gowns worn for dancing—so many of them are taffets, tulle or metal cloth in animated silhouettes.

Mrs. T. Suffer Taffel was charming the other evening in an embroidered black taffeta. Penny Skene reversed order in a frock she wore—green taffeta skirt with delicate green chiffon jacket, embroidered in gold. Margaret McMillan, wearing her hair in a Gaya roll, flashed with the cutest little bodies of cream lace and tulle.

MRS. WINSLOW LOVEJOY—CYNTHIA AND SUZANNE KOHLSTAAT—MRS. C. R. HENDRIX

## SISTER-IN-LAW OF POLA NEGRI IS ARTIST IN PARIS

Paris—(AP)—Negri and Mae Murray's sister-in-law, the Princess Mdivani, is at work in her Paris studio on a trophy which the International League of Aviators will offer to the world's champion aviatrix for 1927.

It is a statue of a winged woman teaching a youth, representing a violation, to fly with greater skill.

Ruth Elder is the only woman flier who has seen the statue. She visited the Princess' studio while in Paris and expressed great admiration for the first woman's international trophy, which is to be retained at headquarters of the International League of Aviators here.

Winners of the trophy will be presented with miniatures of the statue and their names will be engraved on the original.

## Household Hints

## FAILURE-PROOF

When making mayonnaise, add one tablespoon of building, boiling water after you have thoroughly mixed some oil with the egg yolks.

## SAGGING SEATS

When cane seats first begin to sag, rub them until thoroughly soaked with hot soap suds. Turn chair upside down and dry in the sun.

## WOOD SCRATCHES

If your mahogany furniture gets scratched, rub with butter until the proper shade is reached, let dry and polish with glass.

## THE TINYMITES

By Hal Cochran

READ THE STORY, THEN COLOR THE PICTURE

THE TINYMITES had been told that Jack Frost had been in the neighborhood. They were all very nervous and they were all very excited. They were all very happy and they were all very proud. They were all very brave and they were all very strong. They were all very smart and they were all very kind. They were all very beautiful and they were all very good. They were all very happy and they were all very proud. They were all very brave and they were all very strong. They were all very smart and they were all very kind. They were all very beautiful and they were all very good.

They were all very happy and they were all very proud. They were all very brave and they were all very strong. They were all very smart and they were all very kind. They were all very beautiful and they were all very good. They were all very happy and they were all very proud. They were all very brave and they were all very strong. They were all very smart and they were all very kind. They were all very beautiful and they were all very good.

They were all very happy and they were all very proud. They were all very brave and they were all very strong. They were all very smart and they were all very kind. They were all very beautiful and they were all very good. They were all very happy and they were all very proud. They were all very brave and they were all very strong. ## SUSPENDERS IN NEW FORMS AND COLORS LIKED

Paris—(AP)—Jeweled suspenders of white satin which gave Paris a happy glow a few months ago now are taking a new turn—as an established style feature.

Suspenders dresses of many varieties, including some for evening, are a success. The suspenders are usually decorated by contrast of white on dark, printed silk on plain or vice versa.

A new type of evening dress is a gown with a complicated suspender of one color and abbreviated, sometimes decollete blouse of a lighter shade.

## MARGOT'S FASHIONS

3228

## NEW FEMININE MODE

An exquisite frock of sheer figured velvet, boasting the feminine mode, revealed in soft shirring at either side of skirt, and at outer front shoulder forming yoke, with an interesting ruffled collar in boat shape, terminating in low, Navy blue wool crepe black crepe satin seal brown flat silk crepe, black chiffon velvet, green novelty woolen, featherweight tweed in beige and tan tones, and georgette crepe in new purple, are exceptionally lovely fabrics to choose for Design No. 3228. ## BEAUTY HOW AND WHY

CARE OF THE HANDS TELLS THE STORY  
Ann Alysia

BY ANN ALYSIA

FROM time immemorial the hand has been considered a true index to character.

In the first place, it is free from conning, concealing or distorting garments. It can assume no mask, as the face often does. It is therefore open to observation and study.

The first point to strike out notice is the shape of the hand. From this characteristic alone, deductions can be made that are more accurate than we care to admit. Though much may be done to improve the general appearance of the hand, it is practically impossible to alter its skeletal structure.

If you have never thought to do so before, examine your own hand now, and get acquainted with its type. Is it long, narrow, with tapering fingertips—the aristocratic type, or is it broad, flat short with blunt fingers—the artisan's useful hand? The artist's long, lean, nervous hand, with its long tapering fingers is recognized everywhere. In distinct contrast is the small, broad and plump hand of the sensualist.

No matter what the type of hand the way in which its owner cares for it, or does not care for it, tells a most interesting story.

NEXT: The hands' beauty.

## ETIQUETTE HINTS

1. Should you accept an invitation for an extended visit with rich friends when you are no position to be able to return the courtesy?
2. In what ways can you make up for your inability to reciprocate?
3. To whom should you always pay special attention, when visiting?

TH EANSWERS

1. Yes.
2. By being as thoughtful, adaptable and entertaining as possible.
3. Older persons and the children.

## AN EASY WAY TO LOSE FAT

Instead of abnormal exercise or diet, they combat a cause of excess fat. They supply an element Nature employs to turn food into fuel and energy. This method was discovered by research men some two decades ago. It has for 20 years been embodied in Marmola prescription tablets. Millions of boxes have been taken, and almost every circle shows the results in new beauty, new health and vitality.

The formula comes in every box, also the scientific reasons for results. So users have no fear of harm. Go learn now what Marmola does for excess fat, and why. Your druggist supplies it at \$1 per box. Take four tablets daily and watch the change.

## Mother!

Child Gets Sick, Cross, Feverish if Constipated

Mother! Your child isn't naturally cross and peevish. See if tongue is coated; this is a sure sign the little stomach, liver and bowels need a cleansing at once.

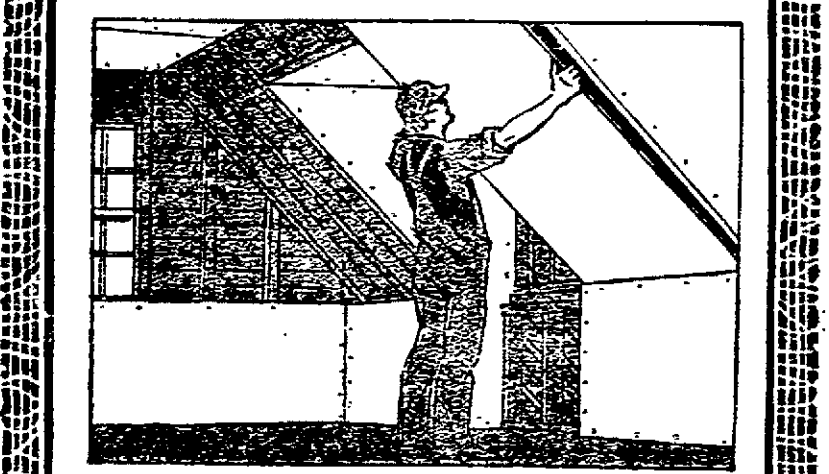

When listless, pale, feverish, full of cold, breath bad, throat sore, doesn't eat, sleep or act naturally, has stomach-ache, diarrhoea, remember a gentle liver and bowel cleansing should always be the first treatment given.

Nothing equals "California Fig Syrup" for children's ills; give a teaspoonful, and in a few hours all the foul waste, sour bile and fermenting food which is clogged in the bowels passes out of the system, and you have a well and playful child again. All children love this harmless, delicious, "fruit laxative," and it never fails to effect a good "inside cleansing." Directions for babies, children of all ages and grown-ups are plainly on the bottle.

Keep it handy in your home. A little given today saves a sick child to-morrow, but get the genuine. Ask your druggist for a bottle of "California Fig Syrup," then see that it is made by "The California Fig Syrup Company."

Keep it handy in your home. A little given today saves a sick child to-morrow, but get the genuine. Ask your druggist for a bottle of "California Fig Syrup," then see that it is made by "The California Fig Syrup Company."

## Why burn coal to melt snow?

A "sealed" or "insulated" attic will cut your fuel bills from 20% to 30%

It is a fact that a properly lined or "insulated" attic will cut your fuel bills from 20% to 30%—or even more.

And Upson Board is an excellent material for this purpose, because each square foot contains millions of dead air spaces which effectively hinder the passage of heat and cold through the board. In fact, certified tests prove that Upson Board compares favorably with any other insulating material on the market.

And while you are about it—why not add those extra attic rooms that you have always wanted? Maid's room, guest room, play room, or sewing room! Carpenters can apply the sturdy, room-high panels with little muss, dirt or delay, and at a very moderate cost.

Why not finish your attic with Upson Board now? You'll like it! Phone or call us at

# Stop Your Catarrh

**Try this Successful Treatment Originated by Dr. W. O. Coffee, for Years a Noted Catarrh Specialist—Use It Right at Home Without Cost or Obligation**

**It's Free. All You Need Send Is Your Name and Address—The Trial Gives Instant Results.**

This is a generous offer. An offer of a regular, scientific, carefully prepared and tested home treatment for catarrh of the nose, throat, head and air passages absolutely free. No strings to it in any way—it is open to everyone—to every catarrh sufferer in the entire United States. Every sufferer, everywhere, who reads this announcement, should unhesitatingly accept it.

There are sure to be thousands of these treatments given away. The more the better; because it is certain that all who make this free test will prove to their satisfaction the worth of Dr. Coffee's famous treatment, that—Every gift-treatment will make a permanent booster.

For no matter how much you are told about the wonders of this way of combating catarrhal conditions, or of the thousands who have been given complete freedom by its use—

A real test—a chance to actually try it and its reactions—in your particular case is better than all explanations.

This treatment for catarrh—for freedom from that condition, relieves and forestalls many feared and distressing situations. A real test is better even than the real testimonials from the thousands who have been given that wonderful relief. And when the gift-treatment has been tried, you will wonder why this wonderful method was never called to your attention before.

Dr. Coffee won national renown as a noted catarrh and deafness specialist. He, too, suffered with catarrh, deafness and head noises and many of its complications. Innumerable treatments failed to better his condition.

## Is This Your Condition?

He experimented until he found a way that gave him real and actual relief in a permanent way. Following this, he treated literally thousands of sufferers in the same manner. Thousands have written, after completing the treatment, expressing thanks for their recovery; for their absolute freedom from colds, nose, bronchial and throat discharges; from poisoned systems, foul breath, bronchial troubles and even rheumatism and intestinal troubles. All due, as they say, to their catarrhal condition.

They are now rid of that constant hacking cough—that offensive sniffling and stifling mouth breathing. Rid of all the filthy, dangerous, offensive, disgusting things which accompany a catarrhal condition. They have been freed of that thick, poisonous, disease bearing mucus.

The presence of that germ filled, disgusting discharge alone is evidence that something is radically wrong. Do all you can to fight this condition.

## Catarrh Is a Handicap

Dirt and dust, from contaminated sections are deposited in the nose and throat with every breath. Much of it finds its way into the mouth, for nasal catarrh causes the disgusting, offensive mouth breathing. The impurities in this filthy laden air are deposited in the catarrhal fluid—the mucus. Soon it finds its way into the body—and it is a strong constitution indeed that can withstand the fight, once it is started.

## The Bronchial Tubes:

The bronchial tubes leading into the lungs are the seat, many times, of constant irritation and distressing trouble. Dry irritating hacking coughs feared by so many, can be traced in many instances to the bronchial tubes. Sufferers fear this—they can see the poisonous mucus; they know of its impurity and its filthy laden center. They fear the colds that catarrh allows to develop—here the hacking, painful cough is noticed. This trouble often leads to more serious troubles and then comes a long, hard, expensive fight to defeat, if possible, the damage caused by catarrh.

## The Nose:

It is here that a catarrhal condition first makes itself known. You catch cold easily—there is a constant, heavy, filthy, loathsome discharge. You are forced to use your handkerchief continually. You blow your nose, hack and cough, breathe freely is impossible. You do not realize it, but constantly a portion of that poisoned mucus is seeping into your blood, into your stomach and thus depositing filth and preparing to cause great damage to your entire system.

## Your Catarrh Habits Are Offensive

Nasal catarrh is without doubt the most offensive of all diseases, it is a constant source of annoyance, it is a constant source of embarrassment. It is a constant source of offense to those who are near you. It is a constant source of offense to those who are near you. It is a constant source of offense to those who are near you.

## W. O. Coffee, M. D.

### Originator of Home Treatment for Catarrh

For more than 45 years, this professional man specialized in eye, ear, nose and throat work. Many years ago he was a sufferer from catarrh, with head noises and deafness from nasal catarrh and crouping him. He developed a treatment for this condition. Constantly experimenting, he finally arrived at a place where his now famous treatment was in its perfection. Thousands looked to him for treatment, and according to their own statements, found quick relief. Dr. Coffee's proved home treatment is now sent to catarrh sufferers free to test and to try. Its good effects are known to thousands who tell of their complete freedom due to this treatment.

## Thousands Recommend Dr. Coffee's Treatment

Don't miss this chance to make the acquaintance of this logical, scientific and purely medical catarrh treatment. A treatment, the worth of which is attested to by thousands, who have written of their relief.

A treatment which has given complete freedom to sufferers everywhere as grateful letters will prove. It is the result of 45 years of active medical preparation and practice. More than four decades devoted to eye, ear, nose and throat work.

Slowly and carefully it was developed—until at last, after many thorough, painstaking tests, Dr. Coffee was convinced that he had the best treatment, the most effective course he had ever found. Its success in the past proves that it accomplishes its purpose. And it is free on trial to you.

## Here's What They Say

Your medicine has done much good. It is worth its weight in gold. J. E. G. Mearns, Ky.

Your 10 days' treatment relieved me. It is worth more than I can express. D. G. Winternaven, Fla.

I have used your trial treatment for catarrh according to directions, and feel as if I am entirely relieved of catarrh. M. L. E. Ragland, Ala.

Your medicine helped me fine. I am not troubled with head noises any more and I feel better all other ways. My hearing is good and my catarrh is gone. I am very glad that I sent for the treatment. A. T. D. Orr, N. J.

I am fine. When I started your treatment I did not weigh 140 pounds, and now I weigh 165 pounds and my health is fine. I am well and your treatment restored me. I hope every one suffering as I did will get your treatment and get well. M. G. Starr, S. C.

My son used your treatment and it worked like magic, the headaches and all of that mucus that was in the nostrils have gone and he rests like a new person. It is a wonderful remedy and I would advise all who suffer from catarrh to give your treatment a trial. T. S. W. Paxton, Fla.

I had been suffering with catarrh for seven years and tried a great many remedies but did not find anything that helped me until I got hold of Dr. Coffee's. Can say after taking the treatment I noticed a change for the better inside of a week. I will recommend your treatment to anyone that has catarrh. P. A. P. Monte Vista, Colo.

Having suffered with catarrh of the nose for twenty years and catarrhal deafness for three years I feel restored after having taken your treatment. I am free from that unpleasant discharge from my head that made it very embarrassing to be in the presence of anyone. All afflicted with catarrhal trouble should give this treatment a trial. F. P. W. Cedar Grove, La.

**ABBOT'S NEW BOOK ADDED TO LIBRARY**

Several Excellent Volumes Have Been Obtained for Kaukauna Readers

Kaukauna—More new books have been received at the Kaukauna Public Library and one of the best is Lyman Abbot's "The Great Companion." The book's purpose is to encourage those who are living in the midst of life and find it a mystery.

Another equally good book is Lippman's "Men of Destiny." Book lovers who want to know who some of the men who have been shaping the destiny of America will find this book extremely helpful. Many will probably disagree with a many of the author's statements. H. L. Menckan comes in for a share of criticism.

A timely story is "The Jury," by Phillips. In this story ten men and one woman of the jury agree in their verdict but the second woman stands out against them all. An excellent detective story with an unusual outcome in the opinion of Miss Kathryn Hoenbrock, local librarian.

The "Dusty Answer" by Lohman is a novel of youth by a young woman. It has been stamped as being frank, troublesome, tender and beautiful, a truly story of feminine psychology.

Other new books are Oliver's "The Love Child," Mikels' "Poetry of Today," and Tomlinson's "Galloons Reach." All popular books.

**ALDERMAN DONATES 12 BOOKS TO LIBRARY**

Kaukauna—W. H. Copp, fourth ward alderman, has recently made a gift of twelve detective stories to the Kaukauna Public Library. These books have been placed in circulation within the last week and are now in constant demand.

The books received are: Openheim's "Wrath to Come," Openheim's "The Shepherd," Openheim's "Great Imagination," Openheim's "Zeppelin's Passenger," Thayer's "Poison," Lincoln's "Blue Car Mystery," Camp's "House of Fear," Fletcher's "Great Brighton Mystery," Layton's "Man Who Knew," Fletcher's "Copper Box," and Wentworth's "Downer House Mystery."

**SELECT EIGHT MEMBERS OF DEBATING SQUADS**

Kaukauna—Eight students of Kaukauna school have been selected to represent the Orange and Black in forthcoming debate. They are: Robert Grogan, Francis Grogan, Peter Hanson, Elmer Otto, Roland Beyer, Verda Rademacher, Gretchen Driesen and Harold Rens. Work for debate will start immediately. Miss M. Clare Wagner, head of the forensics department of the high school, will coach the debaters.

**KAUKAUNA PERSONALS**

Kaukauna—William Van Denzen submitted to an operation at St. Elizabeth hospital at Appleton on Wednesday morning.

Miss Cordell Runte returned to St. Mary-of-the-Woods college at Terre Haute, Ind., after spending Christmas vacation with her parents, Mr. and Mrs. H. T. Runte.

Curtis Beyer left early this week for the University of Illinois.

Mayor W. C. Sullivan returned from Milwaukee on Wednesday morning.

**ENGERTSON STARTS WORK AS NIGHT PATROLMAN**

Kaukauna—Harold Engertson assumed his duties as night patrolman on the south side on Wednesday evening. He is taking the position made vacant by the recent death of John Hiding. Previous to Mr. Engertson's appointment, C. H. Winn had acted as temporary patrolman.

The Appleton Post-Crescent Offers a Booklet On Scientific Kitchens.

Careful research has demonstrated that a great saving in housework is easy and practical by better arrangements of kitchens and kitchen equipment.

You can save thousands of steps, endless stooping, and eternal lifting, if things are planned right for your convenience.

A government booklet, fully illustrated with plans and sketches, gives the results of scientific study in kitchen convenience. A copy awaits you for four cents postage and handling cost.

Use the coupon.

The Post-Crescent's representative at Kaukauna is Gordon Patton. His telephone numbers are 298 J and 10. Business with The Post-Crescent may be transacted through Mr. Patton.

**ST. NORBERT BOWLERS TAKE LEAGUE LEAD**

Kaukauna—St. Norbert bowling team topped Marquette out of first place by virtue of its 2 to 1 victory over the latter in the K. of C. league. The win gave St. Norbert a one game lead over second place. St. Mary won three straight from Georgetown, causing the Georgetown team to fall to fourth place. Creighton defeated St. Francis 2 to 1 and Notre Dame won 2 to 1 from Holy Cross.

The scores:

Creighton	St. Francis	St. Mary	Georgetown

**EXTEND PERIOD FOR PAYMENT OF TAXES**

Kimberly Village Board Sets Time at March 1, Instead of Feb. 1

Kimberly—The village board voted to extend the tax paying time to March 1, instead of Feb. 1, without penalty, at its regular monthly meeting Tuesday evening at the village hall. The allowing of 120s and other routine business occupied the remainder of the meeting.

All the officers were re-elected at a meeting of the Board of Directors of Holy Name church Tuesday evening in the church hall. Officers elected were: Miss Agnes Weyenberg, president; Miss Frances Green, secretary; and Miss Cecilia Dea, treasurer.

About 400 children have been inoculated with anti-toxin for diphtheria during the past month, according to Dr. C. G. Maes, village health officer. Free inoculation is offered to all up to 18 years of age by the village board. Inoculations are in charge of Dr. C. G. Maes.

The annual meeting of the stockholders of the Kimberly State Bank for the election of directors for the year will be held at the bank at 7:30 p.m. Thursday evening.

The Holy Name society of Holy Name church will hold a regular monthly meeting Sunday morning in the church hall after the 7 o'clock mass at which the members will receive Holy communion in a body.

This Kimberly high school basketball squad will battle the Little Chute high school team Friday evening at the clubhouse. A preliminary game will be played between the second squads of the schools.

Mr. and Mrs. J. Sandhofer and daughter, Sylvia, and son, James, visited relatives at Neenah Monday.

CADETS HONORED

"Dress Parade," a West Point picture in which William Boyd plays the starring role, has been dedicated to the cadets and officers of the U. S. Military Academy.

This compliment was accorded by Pathe-DeMille officials in appreciation of the cooperation they gave Director Donald Crisp in the filming of the story of cadet life, which was produced entirely on the grounds of the government Academy. Although the leading cast characters are "Dress Parade" included several players taken by West Point Studio, there are many "shots" in which real cadets are conspicuous, while the entire corps and the officers of the post play their accustomed parts in depicting the life and spirit of the Academy. In addition Director Donald Crisp had the assistance of the cadets and cadets in making "Dress Parade" technically correct. "Dress Parade," which is showing at the Elite Theatre today, Friday and Saturday was written for the screen by Douglas Z. Brown, and features in Boyd's supporting cast, Leslie Love, Louis Natheaux, Brian Allen and Clarence Gelsted.

In addition is shown a Pathe News and Mack Sennett's "The Girl From Everywhere," the first of a series of comedies in Technicolor featuring the famous Sennett Bathing Beauties.

"UNDERWORLD" THEME ONE  
"THAT SHOULD INTEREST FANS"  
"I recently completed a picture which has as its theme a subject in which people are always interested," says Josef von Sternberg, young Hollywood director.  
"Three-fourths of the people who read daily newspapers read stories on this subject first," he continues. "Editors, realizing this, send their star reporters out to get the smallest and most intimate details of such stories. With this theme running through them, a series of stories continuing for weeks will not only the readers' eager interest, it may well be a pleasant commentary on the mind of the American public to realize this," but it is true.  
"The theme is Crime."  
The picture von Sternberg directed

"Underworld" an original screen story of gang warfare by Ben Hecht, comes at Fischers Appleton Today and Friday. Clive Brook, Evelyn Brent, George Bancroft, Larry Semon and E. J. Butler enact the principal roles. It recently had a news story in

The New York Sun. Sternberg continues, "which was based on the annual report of the director of the New York Public Library. He said that of the 4,000,000 persons who last year visited the main building at Fifth Avenue and Forty-second, nearly 75 per cent came to study the newspaper files."

"Of this number nearly all readers seemed interested in stories of crime. This includes casual readers, fans following special murder cases, students basing sociological treatises on crime statistics, writers of fiction, etc. 'This bears out my contention that 'Underworld' taps the greatest vein of interest in America today. I think that in transmitting Hecht's story to the screen I have retained the elements that are so intriguing to the American public."

NOTICE TO TAXPAYERS OF THE TOWN OF CENTER  
Taxes will be collected at the Appleton State Bank, every Thursday this month.  
Signed Henry C. Lillie, Treasurer adv.

# ENTRIES COMING FASTER IN POST-CRESCENT ICE TOURNEY

## Three Senior Men, Girls' Champion Send In Blanks For Sixth Annual Contest

Joe Rottler, Kaukauna and Neenah Seniors in; Bertha Bell Enters

### DUE TO STICK

Gene Robertson, owner of the St. Louis Browns, is expected to start the season at third base instead of the veteran Joe Dugan. Robertson enjoyed a big season with an American Association club in 1927.

Three more senior men entered the sixth annual Post-Crescent ice skating tournament, which will be held Sunday, Jan. 15, at Jones park, Wednesday evening and Thursday morning and the entries assured at least a three-city competition in the fight for the champions cup. Kaukauna, Neenah and Appleton were represented. The Neenah entry was that of Fredrick W. Herick, 18, 206 Third-st.; the Kaukauna entry was Arnold J. Vanderloop, 29, 105 N. Lave-st.; Kaukauna; and the local entry was Joseph Rottler, 25, 1011 W. Fifth-st. All three men entered all three senior races.

Both Vanderloop and Rottler are veterans of Post-Crescent tournaments and both have been point winners in past meets. Rottler especially has been one of the strongest contenders for the championship title for the last three years and last year he finished a close second in the mile race to Robert Roemer, the eventual city champion. With Henry Rammer and Bruno Bell he is among the favorites to take this year's crown.

The first girls' entry came in Wednesday evening, and it was from one of the best-known women skaters in the city, Bertha Bell. Miss Bell is a past city champion in the girls' division and last year she won the girls' champion race from Irene Heiss and Ella Nickash. The 1927 girls' champion race was the first ever attempted by Miss Bell. She is the first skater of Appleton and she will be defending her honors against the field this year. She also is senior girls' champion of northeastern Wisconsin as the result of victory in the title race at Green Bay last winter. Therefore the local senior champion that conquers her could claim the northeastern state title though that really will be decided at Green Bay later in the year.

As yet no other girls' entries have been received in either the junior or senior classes and the fair skaters are urged to get underway immediately to take their chance at the gold medals. Entries for the races close a week from tonight (Thursday).

One junior and one intermediate entry also were received Thursday. The intermediate entry is that of Mark Van Ryzin, 15, 925, Fifth-st., Appleton, who is entered in both intermediate events. The junior entry is that of Harry Fahrrenkrug, 13, route 8, Neenah, who is entered in the junior 440-yard dash but not the 220.

## YANKS BUY COAST STARS FOR DELIVERY IN 1929

New York (AP)—The New York Yankees are looking to the future when some of the cogs in the machine that ran roughshod over the rest of the American league last summer become a bit rusty.

Replacements were added Wednesday when announcement was made of the purchase for 1929, delivery of the crack Keystone combination of Lynn Lary and Jimmy Reese of the Oakland Pacific Coast League club.

Unofficially it was understood these two youngsters will cost the Yankees \$150,000 in cash and players. Reese, who is 22, set a new coast league fielding record for second baseman last year when he accepted 1,273 of the chances that came his way. Lary, the shortstop, who has just reached his majority, also is a strong fielder and both are hard, timely hitters although neither rates among the 300 batsmen.

## Change Of Pace Ball Is Essential In These Days

BY BILLY EVANS

Pitching in the major leagues runs in cycles.

At present there is a hysteria over a change of pace ball among pitchers and managers.

When a scout speaks glowingly of some rookie he has seen in the bushes the first question the manager of his club is sure to ask him is:

"Has he a good change of pace?" Most fans have a mistaken idea of what a change of pace ball really is. Many think of it as simply a low ball. It is all of that and then some more.

No pitcher is born with a change of pace. It is an acquired art, can be added to a pitcher's repertoire only through the medium of much hard work plus a keen mind and plenty of courage.

A change of pace is most effective when used in a punch. In other words, with a couple of runners on the sacks, or better yet the bases filled, and the count three and two on the batter; that is the ideal spot for a change of pace ball in proper control.

In using the change of pace, the pitcher does the very thing the words imply, shifts or varies his pace, using exactly the same motion he does in throwing the fast ball or curve, only much slower.

The ability to do that very thing is what makes the change of pace ball valuable. If the pitcher must shift his pitching style in order to resort to his change of pace, he immediately loses 50 per cent of its effectiveness through tipping off his intent.

The change of pace is a surprise ball. When the batter feels the situation is too tense for the pitcher to gamble and that it is reasonable for

him to expect the fast one, then it is that the change of pace completely upsets the batsman.

In such a crisis, I have seen some of the greatest batters in the history of the game stand as if transfixed while they watched the heater slip by, a perfect strike and hear the umpire call them out, without so much as even lifting their bat off their shoulder.

When I came into the American League 22 years ago, the fast ball pitched then and usually on the inside was the most popular delivery. Few of the batters resisted it.

The fast ball, pitched high, had been the vogue for perhaps 10 years prior to my entry into the majors. Then came the era of the spitball.

Pitchers early learned, for the spitball to be real effective, it was necessary to keep it low, perfectly about knee high. Unquestionably the spitball changed the style of pitching from the high to the low ball.

The spitball by the way, was a fore-runner to an era of fast ball or truck delivery. These fast deliveries soon were barred from the game. The lively ball was also introduced to help the batters come back.

Next came the knuckle ball, an honest delivery, that carries with it much the same deception as some of the freak styles.

However, this lively ball without a question last revolutionized the style of pitching, as did the spitball. No longer has a pitcher who depends exclusively on a fast ball, a chance to get by in the majors. He must be able to slow up, use a change of pace.

Now, the change of pace is all the vogue. What will be next?

## IOWA CARDS DUAL CONTEST WITH CHI A. A. TRACK SQUAD

Olympic and National Track Stars Compete at Iowa City Feb. 18

Iowa City, Ia.—The Chicago Athletic Association's great track and field team will meet that of the University of Iowa in a dual meet here Feb. 18, it was announced by George T. Bresnahan, Hawkeye coach.

It will be the first dual meet of the indoor season in the Iowa field house and also the first time that an Iowa team has ever clashed with one from the Chicago A. A.

An array of brilliant athletes, most of them products of Western conference universities, will be brought to Iowa City by Coach S. H. Darwent.

Horatio M. Fitch, runner-up for the Olympic 400-meter championship and also a former Illinois athlete, and Laddie Myers, Olympic pole vaulter, are the C. A. A. men who competed in the Paris games of 1924.

One of the nation's leading high jumpers is Anton Burg, former Chicago man, who last spring won the Big Ten outdoor title and tied for the National Collegiate championship in his event.

Other C. A. A. stars include Clarence Erickman, National A. A. U. indoor high hurdle champion; Johnny Sittling, Big Ten outdoor half mile champion of 1927; and Alva Martin, former Big Ten, National Collegiate and National A. A. U. half mile titleholder. Martin has a record of 1:53.6-10 for the event.

Twenty athletes will represent the C. A. A. Iowa's team, which includes nine "I" men, has started drills.

## BOOSTERS SWAMP GUARD QUINT BY 62-21 SCORE

Appleton Boosters basketball team, greatly aided by the sharpshooting of Herb Lutz, all-Valley conference-forward of the 1927 Appleton high school cage squad, walloped the Rain-bow division team of Co. D, 127th infantry, Wisconsin National guard, Tuesday evening at Armory G, by a 62-21 score. Lutz sunk a basket within the first few seconds of play and after that the game became a walkaway with the winners dropping more than 25 baskets. The half ended 27-9 for the Boosters.

A feature of the game was the fast passing and breaking of the winners. Lutz and Meinberg starred for the winners and Greenz and Bauers for the losers. For Co. D, C. Christan, L. Christian, Greenz, Bauers and A. Kerrigan played, while R. Hieble, Lutz, Meinberg, Trentlage and Cross played for the Boosters.

## BADGER HOCKEY SQUAD AT WORK

Left—Wisconsin hockey team at practice; Insert—Coach Johnny Farquhar, formerly of Manitoba university, Winnipeg.

Madison—The greatest outdoor curling ever held in this vicinity will get under way here today with the first event in the four-day Winter Sports carnival scheduled for 2:00 P. M. Every winter sport heard of in this country will have its place on the interesting program planned jointly by the city of Madison and the University of Wisconsin.

Three curling games will be played and four different ice boat races will be staged on Lake Mendota. The Four Lakes Ice Yacht Club, one of whose boats hold the Hearst Trophy, is in charge of the ice boat racing. There will be mass skating for all and dancing on the ice every evening. At least six hockey matches will be played during the weekend; some by the Madison Hockey Club six and others by the University of Wisconsin team.

One of the unusual features of the curling will be the Western Intercollegiate championships in speed skating, ski jumping, and cross country skiing, which are scheduled for Friday and Saturday. Among the novelties planned are tennis games on the ice, snow horse and a skater. There will be speeds skating races for boys and girls of all ages and a skating meet between the city of Madison and Dubuque, Iowa.

Several fancy skaters have been engaged to entertain the spectators during the four days. Another feature of the carnival will be the presentation by Governor Fred Zimmerman of the Commodore's Engin to the world's fastest ice yacht, "Princess", a Madison boat.

Saturday afternoon a special ski exhibition will be held and the Kalamazoo Ice Yacht Club will send their challenger here Sunday to race the "Princess" for the Hearst trophy.

## PAUL PREHN CALLS JACK DEMPSEY TRICKY BOXER

Chicago (AP)—A tirade against Jack Dempsey for "unethical" boxing methods was made Wednesday night by Paul Prehn, chairman of the Illinois Boxing commission under whose regulations Dempsey sought unsuccessfully last September to win back the heavyweight title he lost to Gene Tunney.

Dempsey, said Prehn, addressing the Illinois Society of Engineers, "does not know the true meaning of sportsmanship" he has been as "one of the trickiest fighters."

## FORESTER BOWLERS RESUME LOOP PLAY

After a brief rest during the Christmas holidays, members of the Catholic Order of Forester bowling league will resume play Thursday evening at Elk alleys. The Foresters will take the drives at 9 o'clock.

## DEFINITE PLANS FOR TITLE FIGHT IN JUNE

Chicago (AP)—A Chicago newspaper in a copyrighted news story Thursday said that definite plans are being formulated for Gene Tunney to defend his heavyweight championship here sometime in June.

The newspaper explained that the proposed bout would be held in conjunction with the Democratic national convention, should it be held here.

Arrangements provide for holding the fight on the eve of the convention. Regardless of the convention, however, the fight, if held, would be held at Soldier Field in June. A percentage of the fight profits would go to a community chest fund for the benefit of Chicago's needy.

Cleveland—Joe Gluck, Brooklyn, defeated Johnny Farr, Cleveland (10), Jack Britton and Lloyd Hughes (Cleveland), ordered out of ring by referee (5).

Wilmington, Cal.—Mildred Mike O'Dowd, Cleveland, defeated Chickie Herman, San Bernardino, (10).

## WALSH QUALIFIES IN LOS ANGELES TOURNEY

Los Angeles (AP)—Youthful William Burke of New York, flashy in his golfing play, ranked Thursday with such big guns of the links game as Tommy Armour, "Wee" Bobby Cruickshank, and MacDonald Smith as a favorite in the \$10,000 Los Angeles Open tournament, to start Friday at the Wilshire Country Club here.

In 25 holes preliminary play, Wednesday to fill 102 places, in the starting field of 125 in the tournament proper, the youthful professional clipped seven strokes from par on one of the trickiest courses in this section, and topped the contesting field with a brilliant card of 134.

Frank Walsh, Appleton, Wis., qualified in the preliminary play Wednesday turning in a 146.

Started in Far West G. M. Bohner, new Alameda Police, got his football start with Washington State as a participant in four sports.

## MACK DETERMINED TO STOP YANKEES RUNAWAY STREAKS

Connie Strengthens Team to Prevent Another 1927 Walkaway

Philadelphia (AP)—Connie Mack, veteran leader of the Athletics, is one manager who has resolved the New York Yankees won't take a runaway of another American League pennant race next season.

The Athletics made two trades bringing outfielder Bang Miller back to Philadelphia and adding Ossie Orwall, Milwaukee Flash, without apparently detracting from their strength.

Not only does Mack believe the Athletics will be stronger from a playing standpoint next season, but he figures Washington as one of the most dangerous teams in the circuit.

Most of Mack's veterans, including Zack Wheat, Chick Doll, Jacobson, Ty Cobb and Ernie Galloway, have been discarded.

Much of the Athletics' baseball future depends on the ability of Joe Hauser at first base. Hauser has spent the past two years regaining use of a damaged knee.

The Athletics' sowing line-up will be Hauser, first base, Bishop, second base, Jack Foley, shortstop, and Sammy Hale, third base.

Al Simmons, will favor left center. Miller will be in left, but right field is a toss-up between Devo Lebourveau, bought from Toledo, and Walter French, former Army star.

The experienced catching staff comprises Mickey Cochrane, Cy Perkins and Jimmy Fox.

The pitching problem has been somewhat relieved by the purchase of Ossie Orwall. Milwaukee's combination southpaw hurler and outfielder, Joe Bush, a veteran of five major league clubs, has been taken on.

The sinners are the veterans, Jack O'Brien, Howard Ehmke and Edwin Roemer, right handers, and Babe Walberg and Lefty Grove, southpaws, as well as a flock of youngsters.

## QUINN OPPOSES GIVING OUT PRICES OF STARS

# CHEESE FEDERATION REPLIES TO MIDDLEMAN'S CHARGES

## DOES NOT MIDDLE WITH POLITICS OF STATE OR NATION

Co-op Also Denies That Organizations Are Likely to Be Threat to Capital

BY W. F. WINSEY  
Special Farm Writer

Members of the Wisconsin Cheese Producers' Federation declare that evidence continues to pile up that private marketing agencies are working hard to head off the efforts of farmers' co-operatives to increase their membership and to market their own products. Evidence is also at hand they aver, to prove that these private marketing agencies intend to cripple the farmers' extension service as directed by the federal and state governments and to supervise farm legislation in state and national legislatures designed to aid farmers in the collective marketing of their products. The latest source of these kinds of evidence came from the middlemen's conference held in Chicago, Nov. 30.

At this conference the middlemen made the charge that the cooperative movement is mixed up in politics, is a menace to invested capital and is a price-fixing agency and so forth. It was reported.

"Who is it that is mixed up in politics? Is it the farmer? How much of a political program has the Wisconsin Cheese Producers' federation, the Land o' Lakes Creameries, the New York Dairyman's league or any other large cooperative, had during the years of their existence?" These are some of the questions proposed by the federation, and answered by its members in these words. "Insofar as politics is concerned, farmers' co-operatives have been conspicuously neutral."

The middlemen said at their conference that they have several billion dollars at stake and gave this as a reason for farmers' cooperative being a menace to invested capital. Against this investment, the cheese federation counters with the assertion that the investment of the farmers of this country is \$74,000,000,000. From a comparison of figures it is not difficult to decide whose capital is being menaced, according to cheese federation members.

**GUARD FARM INTEREST**  
"Generations of experience with middlemen has proved to farmers that they must look after their own welfare," declares the federation. "Isn't it more important to guard the 74 billions of the farmer invested in a basic industry than it is to allow the industry to go on the rocks in order the several billion dollars may be saved for groups whose business is only secondary to that of the farmer. If farmers' co-operatives are menaced, invested capital, it is only the capital of those who are engaged in an unnecessary business."

Here are a few of the thrusts made by the federation at the middlemen: "Middlemen want prices to fluctuate as much as possible so they can 'buy cheap and sell dear.' Co-operatives want to keep prices as steady as possible, for then farmers will receive a larger yearly income."

"Middlemen want wide margins in order that they can make as much profit as possible. This necessitates paying the farmers as little as possible. Co-operatives try to narrow margins and pay the producers all of the returns for products less the cost of handling."

"Middlemen do not give important consideration to quality. The most important thing with them is to get the product and collect the margins for handling it. Co-operatives emphasize quality improvement first, last and always. They are even credit for having done more than any agency to improve quality in farm products."

**TESTING ASSOCIATIONS FAVORED BY DAIRYMEN**

**Green Bay**—According to J. N. Kavanaugh, county agent, dairymen are responding promptly to the program for the organization of the Holland-Morrison and Wrightstown-DePere Co-op Testing associations. Among the first dairymen to sign up as prospective members of Holland-Morrison association are: John Clark, F. M. Lemke, Henry Koelchhofer, O. H. Monahan, Ben. King, Art. Hoffmann, Louis Hoffmann, Alfred Hoffmann, Walter Hauser, John Schuler, George Bruckner, Henry Ulen and Joseph Schneider. Among the first to sign for the Wrightstown-DePere Association are: Matt Neumann, Souquet Farms, Henry Hannan, Wisconsin State Reformatory, Melvin Erickson and George Paulson.

## New Franken Man's Entry Wins Ton Litter Contest

BY W. F. WINSEY  
Special Farm Writer

According to a Madison report, August Speers, breeder, proprietor of the "Shanty farm," Ham, of the Chester, White hogs, New Franken, won the state ton litter contest of 1927 as one of 163 entrants, 24 of whom qualified. His litter broke the state record made by his own entry the previous year by a margin of over 400 pounds. At the age of six months, Mr. Speers' litter of 12 piglets weighed 3,589 pounds, an average of 299 pounds each. The second prize went to E. E. Divan of Brownstown, whose litter weighed 3,340 pounds, and the third to Soleberg and Kent of Rusk, whose Poland China litter weighed 3,236 pounds.

The Madison announcement of the winners of the 1927 ton litter contest runs as follows: "When ton litter contests for swine were first instituted a few years ago, the idea back of it all was that it was a most unusual feat to produce a 'ton of pork' from one litter of one sow by the time that

## WEST'S WINNING MILKMAID

She might be a beauty prize winner, too, but Miss Emma Handy of Marysville, Calif., holds quite a different honor — that of the best milkmaid in the west. She won this honor at the recent Pacific Slope dairy show in Oakland, Calif.

## Mueller Swiss Sets C. T. A. Record During Past Month

The high herd for the month of December in the Cicero-Black Creek Cow Testing association is owned by A. G. Brusewitz and Son, according to the monthly report of the official tester, Stuart Lambie. Twelve Guernseys produced an average of 393 pounds of milk and 23.5 pounds of butterfat. Other leading herds, in the order named, are owned by Charles Wussow, 17 Guernseys, averaging 477 pounds of milk and 23.4 pounds of fat; Herbert Tubbs, 16 Holsteins, averaging 588 pounds of milk and 21.9 pounds of fat; Claude Armistage, 14 Holsteins, averaging 604 pounds of milk and 21.7 pounds of fat.

Charles Mueller is the owner of the

high cow for the month. His grade Swiss produced 1,119 pounds of milk, testing 6.5 per cent, or 72.1 pounds of butterfat. The second best individual producer is owned by Ray Daniels, whose grade Guernsey yielded 1,149 pounds of milk, testing 4.7 per cent, or 54 pounds of fat. More than 300 pounds of butterfat was produced by each of 165 cows in the association for the year 1927. Twenty-five herds were tested during the past month. The association average is 273 pounds of milk and 15.6 pounds of fat, or an average test of 4.13 per cent. A total of 424 cows were tested, of which 17 produced more than 40 pounds of fat. Records of the latter follow:

Owner	Name	Breed	G. H.	Pct.	Lbs.

## LOCUSTS AGAIN RUIN EGYPTIAN FARM CROPS

**Luxor, Upper Egypt**—(AP)—Like the original plague Moses called down on the enemies of Israel, locusts have returned to Egypt in millions and figuratively "are eating away the face of the earth." Wherever they settle the insects ruin entire crops, eating everything down to the level of the ground.

Unable to cope alone with the visitation, the government has called upon American scientists and others. Airplanes are being prepared for scattering arsenic compounds on the swarms either while in flight or while resting on the ground. Farmers are gathering huge stores of moist bran mixed with arsenic, which the locusts prefer to natural food and to which they easily fall victim.

The government has helped the navy eat beans. The "Navy" or "pear" bean initiated into the navy the last two years, could not be stored in ships well enough without moulding. The department of agriculture's bean experts, however, devised a way for the navy to store the beans and soyabean now eating vast quantities of them.

Some 20,000 buffaloes are scattered through the United States and Canada.

## FARMER'S INCOME IS DISCUSSED AT BEAR CREEK MEETS

Amundson Sponsors Two Gatherings — Economy Measures Are Stressed

BY W. F. WINSEY  
Special Farm Writer

**Bear Creek**—Fifteen farmers attended the dairyman's meeting, sponsored by Robert Amundson, county agent, at the home of August Paul, route 1, last week Wednesday forenoon, and 59 farmers attended the meeting in Turko Hall, Sugar Bush, Wednesday afternoon. Jerry Riorden, former manager of the Harvest farms, Mayville, but now connected with the Wisconsin Manufacturers' association, Madison, and Mr. Amundson were the principal speakers. Mr. Amundson described some of the changes that are taking place in the dairy industry. He invited representatives of the farmers to join a local party in March on a bus tour to Plymouth, Milwaukee and several other points in the state for the purpose of making a study of the dairy situation, and the formation of calf clubs in Outagamie-co, and distributed pamphlets on rationing for dairy cattle and raising poultry. Mr. Riorden talked on diversified farming and especially on dairying. In his talk on diversified farming, Mr. Riorden compared the farming done by the pioneers of Wisconsin with the farming of today and urged farmers to get rid of poor producing cows in their herds, to feed home-grown feed to their cattle and to mix their own rations as a matter of economy. Following are a few of the high points in his talk at the Paul home.

"The pioneers of this state had two sources of income from their farm. One of these was the crops and farm products they sold, and the other the increase in the value of their land due to improvements and the development of the country. Your fathers bought their farms at a very low price and taxes and the cost of living were low. Now land has a value of \$200 an acre or more, taxes are high and the automobile, silk stockings, modern education and amusements make the cost of living much higher than in early days. Formerly, if a farmer made \$1,000 a year on an 80-acre farm he was considered prosperous. Today if the 80-acre farmer cannot take in \$3,000 on an 80-acre farm, he has a hard time of it to pay his expenses and to raise a profit. The 80-acre farmer cannot exist now on an income of \$1,000. Farmers must make more money on their farms today than their fathers did or they must leave their farms."

**RAISE OWN FEED**  
"A large number of farmers are now making upwards of \$3,000 yearly. In Dodge-co some farmers are doing as well as \$4,000. The reason of this success is that they raise their own cash crops such as peas. The most successful farmer is the one who pays out the least money for feed and raises as much feed as he needs on his farm. But if the farmer in paying \$10 for feed can take in \$15 as a result, it pays him to buy the feed. Home-grown feed is better than any other feed in dairying and the raising of hogs. If some feed is not raised on the farm is required to make a balanced ration it may be bought with the proceeds from the sale of surplus farm products."

"A good ration for dairy cows consists of 400 pounds of ground oats, 200 pounds of ground barley, 200 pounds of bran, 100 pounds of oil meal and 100 pounds of cotton seed meal. Corn fed to cows may cause under trouble. Corn ground with cobs if fed to cows may cause stomach trouble. Do not try to save by cutting off the regular ration of a cow when she is dry. Sufficient feed when a cow is in that condition saves a much greater amount later and insures a good milk flow. It is the little things in the care of a dairy herd that pay. Often when a farmer is busy seeding in the spring he is apt to neglect his cows and they may suffer from exposure to the weather or breaks in their regular feed. This neglect can be avoided by placing some one temporarily in care of the herd as also can any decrease in the flow of milk."

**SOMETIMES PAYS TO CUT**  
When there is a shortage of feed, the dairyman may either cut down the regular daily ration of his cows or he may sell some of his cows and keep up the feeding of the regular daily ration to those that are left in the herd. By eliminating four of the poorer cows from his herd, a certain farmer down our way, made more money than 16 cows that he had been making from 20 cows. Any man who keeps the cows in his herd that are not paying a profit has a good chance to make more money in dairying. A Holstein cow that produces no more than 20 pounds of milk a day is kept at a loss to the owner and should be eliminated for that reason. Every activity of the farm must pay a profit if the farmers are to do the best possible. How many of us know whether our hogs, chickens, cows are paying? We must clean up on the farm activities that are not paying a profit.

"It is up to us to make farming pay. No laws nor government can help us. Good cows and the right kind of feeding is a great source of profit for the farmer. If I had a 'word of grade cows' I would join a cow testing association to find out what cows were paying a profit and what were not."

## PLANE RE-SEEDS RANGE; TRIAL CALLED SUCCESS

**Roseburg, Ore.**—Re-seeding of a sheep range by airplane has been conducted successfully here. A 1,900-acre tract of legged-over land was planted to grass by two aviators who scattered 6,000 pounds of seed in ten hours of flying time. A specially constructed hopper was used, and at a cost of 50 cents an acre compared to \$1.25 to \$1.50 for hand sowing, even distribution was obtained which produced a good stand of grass.

The fourth settlers paid twenty-four dollars for Manhattan brand.

## Here And There Among The Farmers--

BY W. F. WINSEY  
Special Farm Writer

**Henry W. Hannan**, route 2, De Pere declared recently that he has proved to his own satisfaction the efficacy of a cow testing association in determining the profit or loss of a dairy herd. As a result of testing, he usually removes several cows from his farm each year. A few years ago he bought a cow that he decided to keep because he considered her a good producer. \$500 after the purchase, the best record she made for the cow tester was 26 pounds of milk a day, testing 2.5 per cent. "As I never sell a cow that cannot pay her board to another dairyman, and never keep one of that kind, I sold this cow to the butcher soon after her test was made," said Mr. Hannan. "Because I have a record of feed costs, production and profits of each of my cows, cattle buyers when they visit me get just what I have to say. I leave empty-handed unless they pay me my price for the cow. The choice of cows as I do, is a result of testing. It is an easy matter to accept or reject offers as soon as they are made. If a cow testing association is to be formed in this vicinity next spring, I shall certainly become a member." Mr. Hannan's butter fat production records show a substantial increase each of the four years. This he has been a member of a cow testing association. The first year that he belonged to an association the average butterfat production of his cows was 290 pounds, the second year 292 pounds, and third year 315, and the fourth year 326.7 pounds. He is now milking 23 of his herd of 39 cows.

**Fred Matzke**, route 1, DePere, who as a result of his success as a grower has been dubbed the "Alfalfa King of Brown-co," raised 100 tons of alfalfa last season and now has 18 acres of alfalfa seed. But he raises alfalfa seed as well as alfalfa hay and says that he never bought seed but once since he took a hand in the alfalfa game. In raising alfalfa seed, his best record was made in 1922. That year he sold \$950 worth of alfalfa seed, the product of a six-acre field. The only fertilizer he uses is barnyard manure. It is probable that his success in raising alfalfa has something to do with his equal success in raising corn. Last year was not noted for big corn crops generally in this part of the state but from 16 acres of corn planted on alfalfa seed, Mr. Matzke filled a silo 18 by 40 feet with 250 bushels of good ears. Mr. Matzke now has a herd of 12 grade Holsteins which includes 16 cows.

**John W. Coenen**, route 1, DePere, has a herd of 35 purebred Holsteins including 27 cows, 25 of which he is now milking. As a result of his connection with a cow testing association, Mr. Coenen has frequently been very much surprised at the poor showing made by cows that he considered the best in his herd and at the good showing made by other cows that he judged the poorest in his herd. The cow tester graded the Coenen cows on a butter fat production basis and showed the owner the profits or losses of individual cows, and, indirectly, the cows to keep and those to sell. In the selection of calves for herd improvement, the cow tester was of great assistance to Mr. Coenen.

The annual fur catch is declining at an alarming rate, according to the biological survey of the Department of Agriculture. The 1925-1926 catch was 29 per cent less than the previous year and in the 1925-1927 season the decline was even greater.

## HAVE KIDNEYS EXAMINED BY YOUR DOCTOR

Take Salts to Wash Kidneys if Back Pains You or Bladder Bothers

Flush your kidneys by drinking a quart of water each day, also take salts occasionally, says a noted authority, who tells us that too much rich food forms acids which almost paralyze the kidneys in their efforts to expel it from the blood. They become sluggish and weaken; then you may suffer with a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, sour stomach, tongue is coated, and when the weather is bad you have rheumatic twinges. The urine gets cloudy, full of sediment, the channels often get sore and irritated, obliging you to seek relief two or three times during the night.

To help neutralize these irritating acids, to help cleanse the kidneys and flush out the body's urinous waste, get four ounces of Jad Salts from any pharmacy here; take a tablespoonful in a glass of water before breakfast for a few days, and your kidneys may then act fine. The famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to help flush and stimulate sluggish kidneys; also to neutralize the acids in the system, so they no longer irritate, thus often relieving bladder weakness. Jad Salts is inexpensive; cannot injure and makes a delightful effervescent lithia-water drink. adv

## MUST TATTOO HOGS TO GET PREMIUMS

Federal Order to Become Effective on July 1 Instead of First of Year

BY W. F. WINSEY  
Special Farm Writer

According to a recent announcement by Dr. A. J. Kniles of the National Livestock Exchange, federal orders requiring that all hogs from accredited counties be tattooed in order to collect premiums, will go into effect July 1, instead of Jan. 1, as was first ordered. "Federal orders requiring that all hogs from accredited counties to be tattooed in order to collect the premiums, will go into effect July 1, instead of Jan. 1, as was first ordered," said Dr. Kniles. "Hogs from accredited counties will be marked in a special manner to distinguish them at packing houses."

"Approximately one-half as large a percentage of hogs from accredited counties were found infected with tuberculosis in packing houses October and November as compared with market hogs. Out of over 30,000 hogs killed during the two months 20 per cent were found infected while out of 1,275 killed from accredited counties, the infection was 9.6 per cent."

"Livestock one of the first accredited in the state, marked two hogs in October and November of which 23 were found infected. Premiums amounted to \$181.67. Waupaca marketed 375 hogs, 49 of which were found infected, and premiums were \$72.32."

**PUREBREDS ONLY**  
The newest county in the United States to report a population of purebred bulls only is Russell county, Ky. Only two other counties, Union county, Ky., and Craig county, Va., have a purebred population only.

## CUT FIRE LOSSES

Co-operation of radio stations WPG, Atlantic City, and WOR, Newark, with the forest service of the state of New Jersey, have reduced that state's forest loss by nearly one-half during the last year.

## ANOTHER CHAMP COW

Amey, junior 2-year-old class B. Holstein cow, has brought another championship to the University of New Hampshire by producing 19,554 pounds of milk (nearly 10 tons) and 519 pounds of butterfat in one year.

## NOTICE TO STOCKHOLDERS

Notice is hereby given that the annual meeting of the Stockholders of the First National Bank of Appleton, Wisconsin will be held at the office of the bank on Tuesday, January 10th, 1928, at 3:30 P. M. for the election of a Board of Directors for the ensuing year and transaction of such other business as may come before such meeting.

L. O. WISSMANN, Cashier. adv.

## DANISH PREMIER URGES IMPROVED AGRICULTURE

**Copenhagen, Denmark**—(AP)—Danish agriculture has not reached its maximum yield by any means, Premier Madsen Mygdal declares. The prime minister urges fellow farmers to keep on producing and to strive for more and better products. It is his opinion that agriculture in Denmark, so far as development of its output is concerned, is an infant industry.

# Forced To Sleep In Chair--Gas So Bad

"It seemed everything I ate would sour and turn to gas. I dreaded bedtime, the gas crowded my heart so. Often at night I sat up in a chair to get a little sleep. I tried all kinds of medicines. Then I read an advertisement about Adierika and got a bottle. The relief it gave me was wonderful. Now it seems I can eat all the time and nothing hurts me. I sleep all night long and am feeling just fine. It's easy to do all my household and washing now. I couldn't praise Adierika enough."—Mrs. Glenn Butler.

As gently and naturally as taking a drink of water, Adierika acts upon BOTH upper and lower bowels, bringing quick relief from gas bloating, intestinal stasis and chronic constipation.

The very FIRST dose of Adierika often brings out astonishing amounts of old waste matter from the intestinal canal. This poisonous matter may have been in the intestines a long time, causing gas, headache, sleeplessness and many other symptoms. A treatment of just a FEW weeks with Adierika often brings great permanent improvement in cases of so-called stomach trouble.

**What Doctors Say**  
Dr. H. Louis Shoub, "New York, states: "Adierika, in addition to its intestinal cleansing action, tends to check the growth of intestinal bacteria."

Dr. A. J. Lancaster, a physician of over a quarter century's experience, says: "In the treatment of gastrointestinal disorders, Adierika has no equal."

J. E. Puckett, writes: "After using Adierika, I feel better than for 20 years. Awful impurities were eliminated from my system."

Dr. Carl Weschcke, graduate of Heidelberg University, Germany, first perfected Adierika. It is a compound of the best saline intestinal cleanser known to science with glycerine, buckthorn, cascara and other gas-expelling and detergent elements. Many physicians recognize Adierika as the one dependable remedy for gas, intestinal stasis and chronic constipation. Unlike most medicines it acts on BOTH upper and lower bowel.

Even if your bowels move every day, Adierika may bring out poisonous, gas-forming matter which you would never believe was in your system.

No matter what you have tried for the bowels and stomach, Adierika will surprise you.

**Sets from \$12 up**

A small down payment and the remainder in monthly payments.

Some of these sets are new, some are used but everyone must go as we are featuring the Batteryless Sets using the new A.C. Radiotrons made by the Radio Corporation of America.

Every set is guaranteed and we know that, at the prices these are marked, you will receive full value.

Get one of these sets now and later trade it in towards a Batteryless A.C. Set.

You will hear Eddie Sawyer at 5 P. M. We are adding new equipment to our station and would like to have some comments. Improvements will be made whenever we can do so.

**JACK LOCKWILL'S FIGHTING BLOOD**

Darling met Jack after Sinnott had moved in. "He's a Hargonite," asserted Willie. "Hargon bet your team wouldn't score against the sophs, and Sinnott helped him when he stopped you by an apparent blunder. Now they've put him where he can spy on you all the time. They mean to get something on you. Watch your step." "You bet I will!" said Jack.

They were not aware, when they walked off together, that Sinnott himself had been leaning against a big tree, a few yards away. Biting his lip, he looked serious.

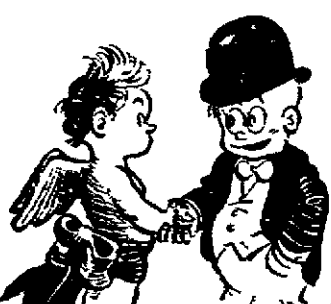

The Leaping Kangaroo went straight to a pawnshop, in town. "Here's a fine watch my mother gave me last Christmas," he said. "I want to get thirty bucks on it."

For the use of students who didn't wish to be seen visiting the place, the pawnshop had a door that opened into an alley. When he left that way, Sinnott came face to face with Hargon and Maddox. "What's the matter?" asked Price. "I told you to come to me if you needed more dough." "I'm going to get out of debt as you," Sinnott answered, producing money. (To Be Continued)

# GAS EXPLOSIONS DAMAGE HOUSE AND ENDANGER FIREMEN

Fire Starting in Rubbish Pile  
Burns Meter Off Gas Line  
and Blasts Follow

Several members of the fire department, including Chief George P. McMillan and Assistant Chief Nick Reuss, escaped injury when gas exploded in the residence of H. G. Hayes, 215 S. Oak, after a fire had started in a box of rubbish in the basement about 3:30 Thursday morning. The explosions were caused by a gas which escaped when a meter was turned off the gas line.

The first alarm reached the fire department about 3:20 and the chemical engine was sent out with Captain H. Reuss in charge. Two men were sent into the basement to fight flames. They put on gas masks. Just as they reached the basement the meter turned off and a huge bulge of flame ejected them. Another call was sent to the department and other trucks were sent out.

After the meter had been turned off, the gas filled the partitions in the house and while firemen were trying to check the fire the gas exploded, blowing the partitions exploded, causing a half of plaster to be rained on firemen. The blast was not severe enough to cause the foundations of the house to collapse. The fire ate through the partitions and reached the gas plant for a repair crew.

This a constant stream of water played on the end of the broken line, a fireman, wearing a gas mask and asbestos gloves, succeeded in shutting off the gas flow. A jet of the several feet long burning at the end of the pipe, hampered the fireman.

Chief McMillan praised the Wisconsin Power company gas crew which had a repair crew at the end of the fire within a few minutes. The emergency call was sent in, though the gas flow had been shut before the gas crew arrived, the said, the gas company deserved it for its quick response.

The fire was brought under control as the gas was shut off. Practically all the chemicals which the department had on hand was used to use the blaze. The damage was estimated at between \$500 and \$700 by McMillan.

**FOR NAMES COMMITTEE  
TO CONSIDER AIRPORT HERE**

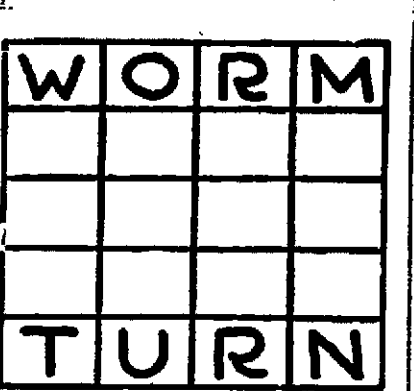

The first definite action to be taken in the city toward the erection of an airport occurred Wednesday night when Mayor A. C. Rule named Alder Gmeiner, Thompson and Vanderhoeve on a committee to meet with the civic bodies and report on the situation.

The airport situation at the present is attracting considerable attention and a meeting of the chamber of commerce airport committee is scheduled for Thursday afternoon. Plans formulated provide for "air bodies," consisting of lectures before the public, the first step toward giving public reaction on the move.

## LETTER GOLF

**THE WORM TURNS**  
The early bird catches the WORM but occasionally it TURNS. To turn worm to turn takes just four strokes. See the par solution on Page 11.

**THE RULES**  
1—The idea of letter golf is to change one word to another and do it in par, a given number of strokes. Thus to change COW TO HEN, in three strokes, COW, HOW, HEW, HEN.  
2—You can change only one letter at a time.  
3—You must have a complete word of common usage, for each jump. Slang words and abbreviations don't count.  
4—The order of letters cannot be changed.

## GRANT 2 APPLICATIONS FOR OLD AGE PENSIONS

Two applications for old age pensions were granted by the old age pension committee of the county board at a regular semi-monthly meeting at the courthouse here Wednesday afternoon. One increase in pension on an approved application was granted and two applications were refused by the committee. Supervisor Anton Jansen from Little Chute is chairman of the committee.

## To Make Pine Cough Syrup at Home

Has no equal for prompt results. Takes less time. Saves about \$2.

Pine is used in nearly all prescriptions and remedies for coughs. The reason is, pine has a remarkable effect in soothing and healing the membranes of the throat and chest.

Pine cough syrups are combinations of pine and sugar. The "syrup" part is usually plain sugar syrup. To make the best pine cough remedy that money can buy, put 2½ ounces of Pinex in a pint bottle, and fill up with homemade sugar syrup. Or you can use clarified honey, instead of sugar syrup. This makes a full pint—more than you can buy ready-made for three times the money. It is pure, and tastes good.

You can feel this take hold of a cough or cold in a way that means business. The cough may be dry, hoarse and tight, or may be persistently loose from the formation of phlegm. The cause is the same—inflamed membranes—and this Pinex and Syrup combination will stop it—usually in 24 hours or less. Splendid, too, for bronchial asthma, bronchitis, and hoarseness.

Pinex is a highly concentrated compound of genuine Norway pine extract and palatable guaiacol, and is famous the world over for its prompt effect upon coughs.

Beware of substitutes. Ask your druggist for "2½ ounces of Pinex" with directions. Guaranteed to give absolute satisfaction or money promptly refunded. The Pinex Co., Ft. Wayne, Ind.

## STATE CAN DEFINE "GAMES" AT FAIRS

**Commissioner of Agriculture  
Has Complete Charge of  
Fair Concessions**

Madison. —(AP)—The commissioner of agriculture has power to define what games, devices, shows and concessions at agricultural fairs are objectionable, and can withhold state aid in case fair associations permit such features. So Walter A. Duffey, commissioner, has been advised by the attorney-general.

The commissioner may also limit the amount of space which may be devoted to midway, and he may limit money spent for premiums and special attractions, the attorney holds.

Those interested in agricultural fairs throughout the state have been concerning themselves with the question of gambling devices and dishonest games of chance at the fairs. F. C. Borchardt, Jr., Manitowish, president of the Wisconsin Association of Fairs, declared "the midway must be cleaned up," in speaking before the association's convention in Milwaukee Wednesday. He said the chief purpose of the convention should be to abolish crooked games of chance.

A share of the blame must be borne by the public which patronizes such concessions, he said, but secretaries of fairs are in part responsible because they often do not care what kind of "racket" the concession men use.

**Faculty Meeting**  
The regular meeting of Appleton high school faculty will be held at 4:15 Monday afternoon at the high school building. Advanced registration for the second semester will be discussed. Routine matters will be transacted.

## Itching Torture

Use Zemo, Healing Liquid

There is one safe dependable treatment for the itching torture of Eczema. The first application of Zemo usually stops itching and gives relief. It will help rid the skin of Pimples, Rash, Blisters, Eruptions and other annoying skin irritations.

You will be surprised how quickly skin troubles will react to this clean, antiseptic, soothing liquid. Easy to apply at any time. 35c, 60c and \$1.00.

## How To Play Bridge

By Milton C. Work

**CONTRACT BRIDGE**  
Comparing Contract Bridge with Auction Bridge, there is little difference between the two games in the opening bid with hands which, at Contract, justify an initial one-bid in either suit or No Trump. The original idea that much greater strength is needed to bid one at Contract than at Auction, has been found to be fallacious; also the idea that in Contract much greater conservatism should be shown by a sound player in making the initial bid when the bidder's side is vulnerable, than when it is not vulnerable.

**Cracked Cylinder . .  
Broken Radiator**

**Freezing costs money  
PYRO will prevent it!**

You can't tell what may happen when a car freezes up. Sometimes it's merely an inconvenience, but more often parts are seriously damaged!

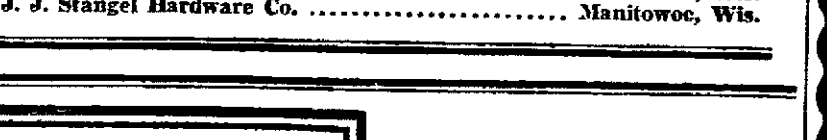

Don't take the risk. Use the proper quantity of Pyro De-natured Alcohol—widely recognized as the most efficient and safest anti-freeze for every make of car.

**Guaranteed not to clog, rot, or corrode mechanical parts.**  
Stop at a garage or filling station and say "PYRO." Be sure you get it—from the drum with the blue Pyro label. And take a can home, so you can add Pyro from time to time to replace natural evaporation.

Also sold by hardware, paint, and drug stores.  
Ask your dealer for a free Pyro Protection Chart, which shows exactly how much Pyro you need at any temperature.

difference being that when in doubt whether to bid or to pass initially, vulnerability should cause the verdict to be on the side of conservatism.

In Auction Bridge the hand containing three suits stopped and high cards above the average (the average being one Ace, one King, one Queen and one Jack) Using a count of 4 for an Ace, 3 for a King, 2 for a Queen and 1 for a Jack (total 10), the general rule is: bid No Trump with three suits stopped and a count of 11. In Contract it is advisable to increase the Auction Bridge No Trump requirement slightly, because Contract penalties are heavier and a No Trump both invites and tempts a "jump" from partner. In Contract, No Trump should not be bid with a count of less than 12; and, even with 12, the hand ought to contain one or two Tens and have a satisfactory No Trump distribution (the more evenly divided the hand, the better it is for an initial No Trump). With a count of 13, however, and three suits stopped, No Trump is justified in Contract, either by a Dealer or by a Second Hand (Dealer having passed), unless the hand contains a five-card Major and an unstopped suit, in which case the Major should be bid in preference to the No Trump; or has a blank suit or worthless singleton, in which case a suit-bid or pass is better than No Trump.
